**House-made tiramisu**, cream **14**

Please make note of your table number before ordering. We have a 10% surcharge on public holidays.

## FRESH VS FROZEN

**FRESH FISH** is caught and immediately stored in ice baths onboard the boat. It's then processed, filleted and sold directly to restaurants without freezing. You'll find it on our specials boards.

**FROZEN FISH** is caught and immediately processed, filleted and snap frozen to preserve flavour and freshness before being sold to restaurants. Freezing our fresh catch means we'll never run out of your Clancy's favourites - or the 25 tonnes of seafood that we dish up every year!

## LOCAL OR IMPORTED

We dish up a lot of fish, and to protect Australian seafood stocks from overfishing we sometimes have to use fish imported from overseas. We only ever serve responsibly caught or sustainably farmed seafood, from producers as committed as we are to delicious fish and healthy oceans.
